

Little improvement will be attempted this winter in Soldier township, members of the township board announced this morning. Owing to the weather no concrete work could be attempted nor would the construction of a structure of any considerable size be practiced at this time, board members declare. The work not yet completed will be finished at once and for the remainder of the year only necessary improvements will be attempted. The board which met today transacted only routine business during the medium of the campaign is no more. But the work done through the medium of the campaign will be continued if plans formulated by ministers of the North side materialize tonight, when men of the various churches meet at the Presbyterian church. Plans are being laid for an organization of laymen of the North Topeka churches.
